### **TRADE AND INVEST AT YOUR OWN RISK:**

Trading and investing involves a substantial risk of loss and is not suitable for every investor. If the market moves against you, you may sustain a total loss greater than the amount you deposited into your account. You are responsible for all the risks and financial resources you use and for the chosen trading system. You should not engage in trading unless you fully understand the nature of the transactions you are entering into and the extent of your exposure to loss. If you do not fully understand these risks you must seek independent advice from your financial advisor.
